Why Choose us?

Facilitated by Paediatric Specialists:

- All training is led by professionals specializing in child health, ensuring the most relevant and effective learning for school environments.

Simulation-Based Training:

- Experience real-life scenarios through simulations, helping staff gain confidence and practical skills in emergency response.

Beyond First Aid:

- Additional learning opportunities include illness recognition, caring for deteriorating students, and guidelines on isolation periods to help keep kids safe.

Certificate Management:

- We store staff certificates, making access and tracking easy for you.

Complete Administration:

- We handle the entire course setup, so you can focus on what matters—your staff and students.

Flexible Scheduling:

- First choice of dates that work best for follow-up refresher training.

Added Benefits for Your School

Discounts on CPR Refreshers:

Keep staff skills up-to-date with affordable refresher courses.

Specialized Training:

Discounts on anaphylaxis supervisor training and asthma/anaphylaxis assessments.

Complex Care Training Discounts:

Reduced rates for specialized care training when needed.

50% Off Workplace First Aid Kits:

Ensure your school is always stocked and ready for emergencies.

5 Free Debrief Sessions:

Complimentary debrief sessions for staff after first aid incidents to provide support and learning opportunities.

Staff Simulations for Professional Development:

Simulation exercises available year-round to keep staff skills sharp as part of professional development.

Free Educational Resources for Students

Aligning with the school curriculum, we provide engaging, age-appropriate resources to help students learn about safety, emergencies, and basic first aid. Our resources are designed to foster a sense of safety and community within your school.

About us

Sarah Duncanson

Bnurs, PGDip Paed Crit Care
MANP, Cert IV TAE

Sarah has extensive experience in education, training, and Paediatric Advanced Life Support. She has been involved in Clinical education at RCH, Melbourne and with the Australian College of Critical Care Nursing, and has held roles as a Clinical Nurse Consultant, PICU outreach nurse and Paediatric retrieval nurse. Her special interests lie in Children with Congenital heart conditions, family centred care and Resuscitation. Sarah is the Vice chair of the VIC branch Australian Resuscitation Council, working to improve Paediatric representation in the hospital and community setting.

Grace Larson

BNurs, PGDip Paed Crit Care
MANP, Cert IV TAE

Grace is a paediatric intensive care nurse with over a decade experience in paediatric nursing education. She also brings experience with quality and safety and consults for the Australian Midwifery and Nursing Federation on nurse safety issues. She has a special interest in children's procedural pain and sedation, and she completed her masters in that field. She is the Senior Clinical Educator for Medcast Critical Care Education, trailblazing the Paediatric education field in community medicine and critical care environments.
